## For Immediate Release

### Magnum Systems Article Published

Magnum Systems is pleased to announce the release of the November/December issue of *Manufacturing Today* which features an article on Magnum Systems.

Magnum Systems is a leading process company specializing in pneumatic conveying, packaging, and automation. Founded in 2001, Magnum Systems consist of two unique and well known divisions: Smoot and Taylor Products. Smoot, est. in 1960, is a leader in the design and execution of pneumatic conveying systems and components. Taylor Products, est. 1969, is a leader in the design and manufacturing of bagging, weighing, and packaging equipment.

*Manufacturing Today* is a publication that helps companies prosper by explaining new management and e-business tools, spotlighting growth opportunities, and sharing success stories. The magazine monitors the fast-changing marketplace for manufactured goods and analyzes effective strategies of the most successful firms.

Magnum Systems is committed to offering our customers with innovative and problem solving solutions. Our enormous equipment breadth, years of experience, and drive for excellence allows us to offer combined process solutions that no other company can.
